

*The Orbeli Physiology Institute invites you to the
2022 Advanced Bioimaging Seminar series*

CLARITY Tissue Clearing: Overcoming Nature's Barriers to See Beyond the Unseen

Thursday June 23th 2022, 5pm
Orbeli Physiology Institute Conference room
Yerevan, 22 Orbeli Brothers street

Hovhannes Arestakesyan, PhD

*Postdoctoral Scholar, American Heart Association Fellow
School of Medicine and Health Sciences
George Washington University, USA*

CLARITY Tissue Clearing approach is an optical clearing technique used to achieve deep tissue imaging in 3-dimensions (3D). The ability to image complete intact anatomical structures is providing tremendous insight into the structural organization of tissues in health and disease. In this seminar we will explore several optical clearing techniques, followed with discussion of pros-and-cons and possible applications in different fields of science.

The webinar will be in English, is free and open to the public
Refreshments will be served
